tea and coffee

Coffee and Tea freshness requires exceptional packaging. It is essential to avoid exposure to elements such as moisture, air, sunlight, and heat, which can adversely alter quality and taste. Our bags and pouches provide superior protection from exposure

to such harmful factors. Functional add-on features, such as tear notches, resealable zip closures, and one-way degassing valves can further maximize shelf-life and add value to your customers.

food packaging

Differentiate your brand from the competitive food landscape with our appealing and professional-grade packaging. Other packaging can easily rip and tear, and often does not provide an airtight seal after being

opened. Flexible packaging is lightweight, easy to store, puncture and tear-proof. Preserve your product's flavorful characteristics to achieve better customer satisfaction and retention.

pet care

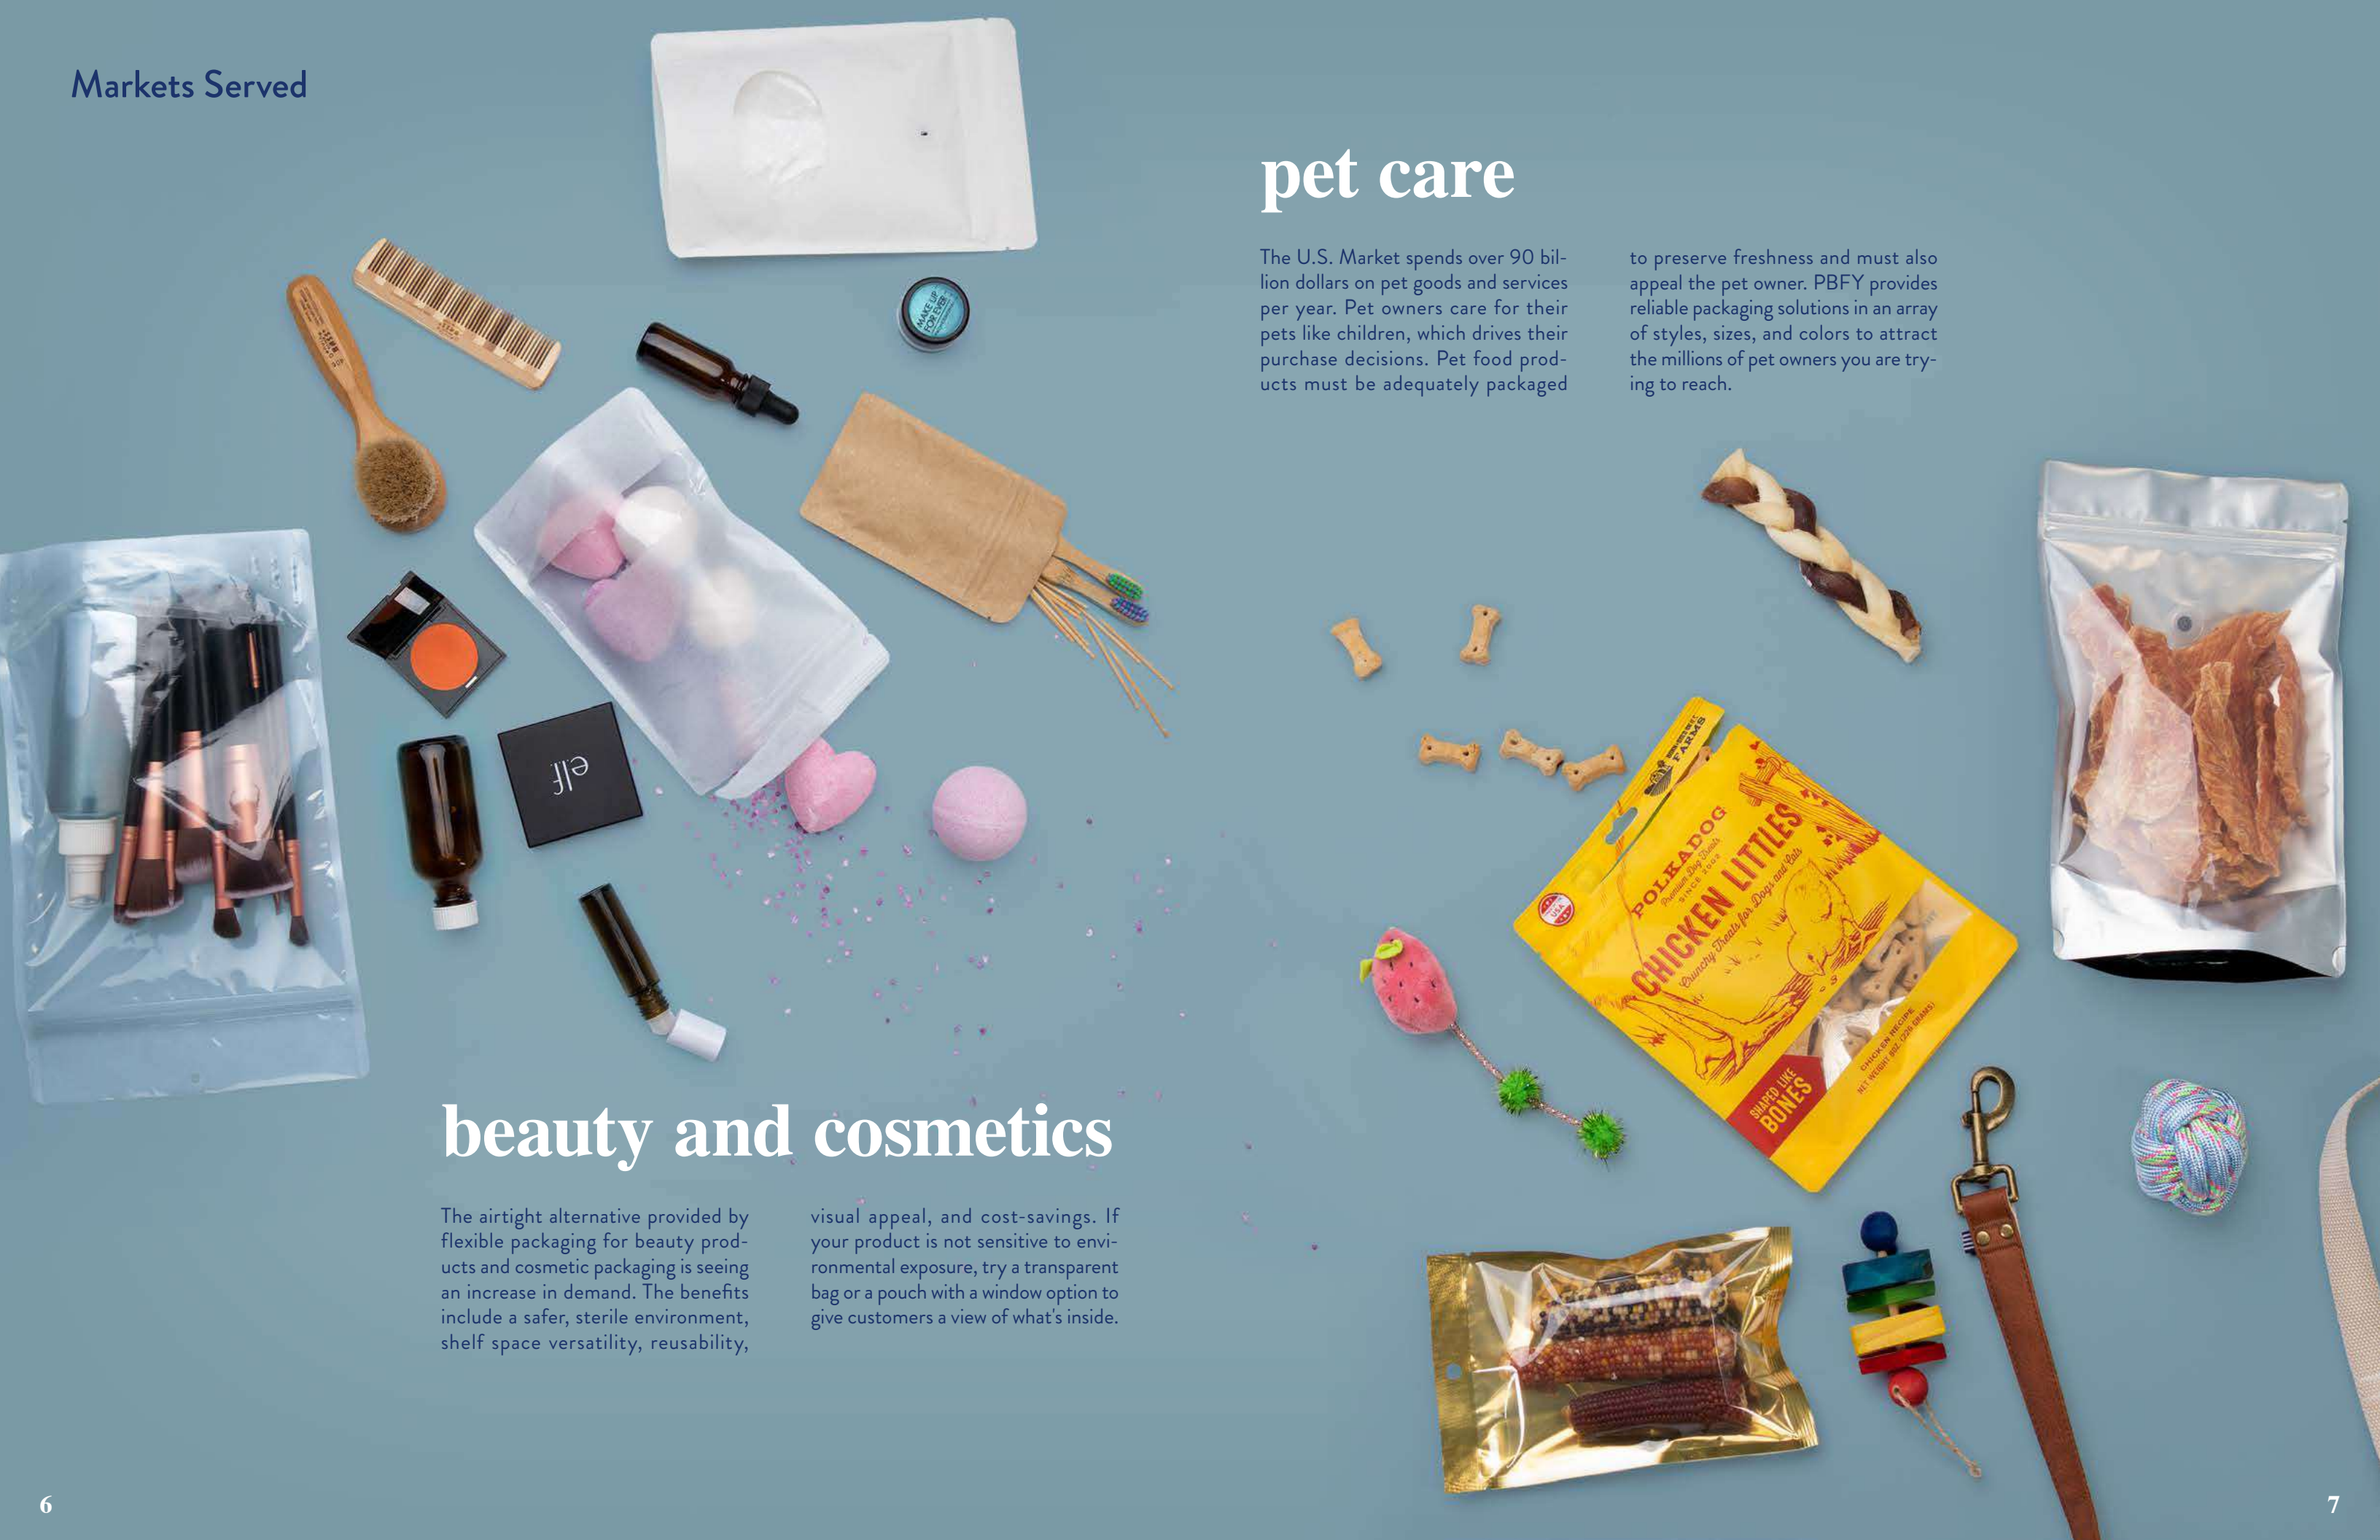

The U.S. Market spends over 90 billion dollars on pet goods and services per year. Pet owners care for their pets like children, which drives their purchase decisions. Pet food products must be adequately packaged

to preserve freshness and must also appeal the pet owner. PBFY provides reliable packaging solutions in an array of styles, sizes, and colors to attract the millions of pet owners you are trying to reach.

beauty and cosmetics

The airtight alternative provided by flexible packaging for beauty products and cosmetic packaging is seeing an increase in demand. The benefits include a safer, sterile environment, shelf space versatility, reusability,

visual appeal, and cost-savings. If your product is not sensitive to environmental exposure, try a transparent bag or a pouch with a window option to give customers a view of what's inside.

bag anatomy and application services

hang hole

Wall and display hook merchandising is a great option for on-the-go items, or when shelf space is limited or not ideal for the success of your product sales.

Available on Stand up pouches, and select flat pouches.

Minimum: 1 case
Lead Time: 2 - 3 days

possible applications

stand up pouch

hang hole

tear notch

Allows you to open the bag easily below the protective heat seal.

resealable zipper

Once tear notch is pulled, maintain product freshness with this valuable and essential feature.

window / no window

Entice customers with a sneak-peek of what's inside or skip the window to protect your contents from extra light exposure. The choice is yours!

paper bag

included tin tie

This built-in feature makes opening and re-closing easy, helping extend freshness.

Note: Tin tie not included on our 5 lb size.

window / no window

Each product has unique packaging requirements. Show your goods or don't – your choice.

possible applications

window

no window

label application **flat pouch**

Labels are an effective way to display company and nutritional information when required for specific products.

custom label

three side seal

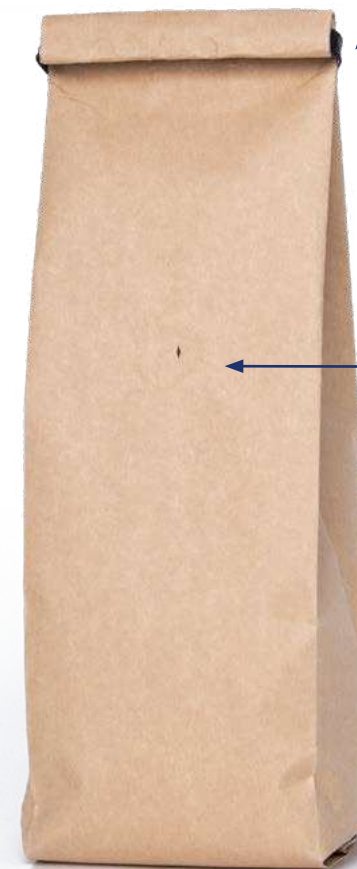

Tear notch, and round hang hole included. A resealable zipper is available on the larger size option.

possible applications

side gusseted bag

possible applications

tin tie

Add a tin tie to make resealing easy, maintaining freshness longer. Save yourself the trouble and let us pre-apply for you.

Available on 8 oz to 5 lb side gusseted bags.

Minimum: 1 case
Lead Time: 2 - 3 days

valve

One-way degassing valves allow air and pressure to be released from within the bag while preventing air from getting in. Most commonly used to protect the shelf-life of freshly roasted coffee beans.

Available on select stand up pouches, all side gusseted bags, and flat pouches.

Minimum: 1 case
Lead Time: 1 - 2 days

tear notch

Simply pull on either side and break through that seal with ease!

quad seal

A four-corner (quad) seal gives the side gussets a reinforced structure enhancing its shape and shelf presentation.

block bottom

Similar to the quad seal but with a square (block) bottom gusset allowing them to stand on their own for easy filling.

stand up pouches

Stand up pouches make ideal containers for a variety of solid, liquid, and powdered foods, as well as non-food items. Food grade laminates help keep your eats fresher for longer, while the ample surface area makes a perfect billboard for your brand and can be used to display catchy logos and graphics. Look forward to major

savings in freight, since stand up pouch bags take up minimal space in storage and on shelves. Worried about your carbon footprint? These environmentally friendly pouches use up to 75% less material than traditional bag-in-a-box containers, cartons, or cans!

side gusseted bags

Our side gusset coffee bag is the ideal packaging option for ground or whole coffee beans. When added, one-way degassing valves are essential for coffee packages due to the carbon dioxide that is released from freshly roasted coffee beans. These valves keep your

coffee fresh and prevent the bags from bursting.

flat pouches

Flat pouches are an excellent choice for food products like mixes, teas, nuts, grains, and more. Add a valve, and you have an ideal value coffee bag!

Our Classic Flat Pouch style is lightweight, and when properly sealed, it will provide freshness protection to your goods.

Our Three Side Seal design features a clear front panel, an excellent choice for products that display nicely on store shelves.

Customize any of our flat pouches with a valve, a hang hole, add a printed label or any other of our custom print services.

Paper Bags

Our paper bags come with tie-ties, are lined with food-safe materials, and feature a square bottom gusset allowing the bag to stand upright at any point-of-purchase location.

You can take advantage of our window options and provide a sneak peek of your product to consumers

during-store shopping.

We also offer compostable options made from recycled kraft paper and constructed with polylactic acid lining, a corn-based polymer, which is compostable. These bags are compostable after the tin-tie removal.

custom printing details

PBFY offers our customers an experienced, in-house production team that makes custom printed packaging projects become a reality. Whatever industry you are in, we are here to assist you every step of the way so you get the perfect custom bags.

Gravure

Color Options: Full color
Lead Time: 8-10 weeks, 4-6 weeks (air freight)

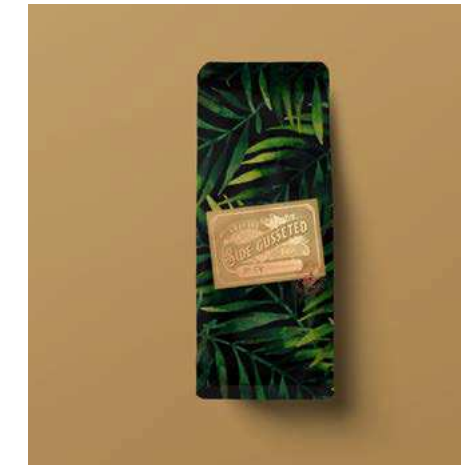

This high definition multi-color process is characterized by excellent print quality, high printing speed, and accurate ink use. Edge to edge printing, fine artwork details, metallic or matte inks, gloss, or soft-touch finish is possible with this method!

Digital Color

Color Options: Full color
Lead Time: 4-6 weeks

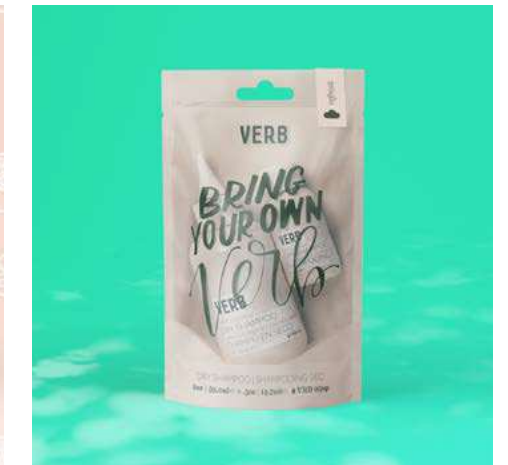

Forego plates, reducing costs, and enjoy lower minimums. Digital printing renders high-quality results in smaller batches, giving you the ability to test new ideas without a large inventory commitment.

Hot Stamp

Color Options: 3-4 colors
Lead Time: 10-14 days
Minimum order: One case

This process allows for up to two color customization using a wide selection of eye-catching metallic, matte, and matte-metallic foils that are sure to enhance your packaging's attractiveness, and with fast turn around times!

Sticker Label

Color Options: Full color
Lead Time: 10-14 days
Minimum order: Call for quote

Whether your artwork is single-color or multi-color, with photographic images or line art only, our sticker labels are a popular way to customize packaging by many successful business owners like you! Label application services are also available at PBFY!
